About Me

My name is Taha, Innovative and detail-oriented developer with expertise in web design, AI model development, and graphic design. Passionate about creating visually appealing, user-friendly websites and intelligent AI solutions. Skilled in HTML, CSS, JavaScript, and frameworks like React, along with experience in machine learning, neural networks, and Python-based AI models. Adept at translating complex concepts into intuitive designs while maintaining a strong aesthetic sense. Experienced in UI/UX design, branding, and digital illustrations for diverse projects. Continuously exploring the intersection of AI and design to build cutting-edge applications. Strong problem-solving abilities with a focus on performance, scalability, and creativity. Committed to staying updated with the latest industry trends and technologies. Collaborative team player with excellent communication skills, ensuring seamless project execution. Always eager to take on new challenges and deliver high-quality, innovative solutions.
